

Rhugh Garbh Depot Mariner's guide

Welcome to Rhugh Garbh Depot. The following information is intended to help ensure that all activities carried out here are done safely, and with a regard to the environment. Please read the following information and take note of those sections that apply to you. If you have any questions regarding any aspect of the Yeoman Glensanda operation, please do not hesitate to ask.

Ian F.Henry
Glensanda Harbour Master

Gregor Hutchison
Marine Operations Manager

25th February 2016

Depot Address	Aggregate Industries UK Ltd. Yeoman Glensanda Rhugh Garbh Depot Barcaldine Nr Oban Argyll PA37 1SE
Marine Operations Manager	Gregor Hutchison Tel : 01631 720841 Mob : 07795 978110 Fax : 01631 720720 Home Tel : 01631 720460 e-mail : gregor.hutchison@aggregate.com

Glensanda Harbour Master	Ian F.Henry Glensanda Office Tel: 01631 568110 / 568100 Mobile: 07815 966302 Fax: 01631 730460 Home Tel: 01631 565572 e-mail: ian.henry@aggregate.com
Location	By road: On the A828 approx 2 miles north of Benderloch Village. By water : On the eastern shore of Loch Creran
Purpose	To act as the goods receiving and clearing depot for Glensanda Quarry, including operation of personnel boats to ferry people to and from Glensanda. All goods and equipment for the quarry pass through this depot.
Access	Personnel boats can tie up alongside the floating pontoon to allow passenger access. A series of 4 roll on / roll off ramps are able to take barges for the loading and unloading of supplies, equipment etc. to and from Glensanda. Care should be taken alongside as the lower edges of the bedrock immediately in front of the ramps can dry out at low tides.
Health & Safety	Please take note of safety clothing requirements on back of this booklet. Any crewmember coming ashore must comply with minimum protective clothing requirements; hard hat, lace up safety boots, safety glasses, hi-vis long sleeve jacket, hi-vis trousers, hand protection and life jacket. These should be worn whether on the jetty or ashore to ensure personal safety.
Working Hours	The depot is manned to receive goods Monday – Friday 08:00 – 17:00 with only two exceptions – Christmas Day and New Years Day. Personnel boats run from 06:30 until 20:00 7 days a week.

Prevention of Pollution in Loch Creran	<p>Loch Creran is a Marine Protected Area (MPA) and a Special Area of Conservation (SAC). As such, there are strict rules and guidelines on what activities may be carried out. The loch is currently the most notable site in Europe for serpulid reefs, which are only reported in three other locations in the world. It also contains many salmon and shellfish farms and it is extremely important that visiting vessels cause absolutely no pollution of any nature to these waters.</p> <p>The following instructions must be strictly adhered to whilst in Loch Creran, whether on berth or at anchor :-</p> <ol style="list-style-type: none">1. Vessels must arrive with clean ballast water on board. The discharge of any dirty ballast water is strictly prohibited.2. All cleaning of vessels holds, decks, etc must be completed before arrival. Under no circumstances must any previous cargo residues or waste be washed or dumped into Loch Creran.3. The pumping out of any bilges is strictly prohibited whilst vessels are in Loch Creran.4. Vessels must only anchor in designated anchorages, or must stay on one of the company moorings, or alongside the pontoon. A leaflet is available showing the anchorage areas, the best for most purposes is to the north, off the Creagan Inn. <p>To sum up, this means that the Masters of all vessels must instruct their crews to take great care not to cause any pollution to the waters of Loch Creran by any substance.</p>
Facilities	<p>No fuel, no fresh water, no stores. A small village shop and petrol station in Benderloch is a 10 minute drive away. If more is needed, the town of Oban is closest for major resupply. Owing to its remoteness this is a poor place for changing crew or for visiting the ship. Emergency first aid medical services are available on site. Otherwise medical, dental and legal services are available in Oban.</p>
Port Waste Facilities	<p>Skip available for general waste, but no facilities to receive hazardous or special waste.</p>
Weather	<p>Invariably mild. Prevailing wind is South Westerly. Storms and severe gales are not unknown and Masters are cautioned to be prepared for sudden changes in weather.</p>
Tides	<p>Tides follow those of Oban port. The extreme tidal range is a little over 4.0 metres. It is noticeable that the high water level stands for about 90 minutes after each high tide – then it falls rapidly. The tide can run at 5 knots or more at the mouth of the Loch during spring tides.</p>
Marine Emergency	<p>In the event of an emergency, contact any member of the depot staff. Where an incident involves spillage of fuel or oil, the Marine Operations Manager will take charge of pollution response. Stornoway Coast Guard keeps watch on VHF Channel 16 and will co-ordinate all available services throughout any crisis.</p> <p>Fire, Police and Ambulance can be contacted by dialling 999</p>

Attention! Pansin! Внимание! Aufmerksamkeit! Opvallen!

- Welcome to Rhugh Garbh ~ The following safety equipment must be worn at all times
- Willkommen zum Rhugh Garbh ~ die folgende Sicherheit Ausrüstung muß ständig getragen werden
